

# iMade

Mobile Application Development Event

## What is iMade?

iMade is the iPhone Mobile Application Development Event where we will design and build an iPhone application in a day with the help of several talented and skilled designers and developers who will work together to build the application.

## Should I attend iMade?

If you would like to learn to design or develop applications for the iPhone you should attend this event. The event will cover three main topics: User Experience Design, Graphics Design and Coding in Objective-C for Native Application Development.

## When and where is iMade?

iMade will be held at Centare in Brookfield on October 24th from 10am till 3:30pm.

**Register Now! Space is limited.**
